

New: Agile Escape Room

Are you a managing director, an executive or a project manager and considering how your organization and your employees can benefit from agile work principles? If so, then travel together with your colleagues in our mobile Agile Escape Room "Back to the Future". Experience agile work at first hand. With fun and excitement we will teach you agile principles and how you can transfer the key learnings to your organization.

Sprint 1: Intro
Impulse session: "Agile work"? - Background and goals

Learning 1
I now understand what agility really means for me and my organization.

Sprint 2: Mission
Introduction to and participation in the Agile Escape Room and solving the tasks.

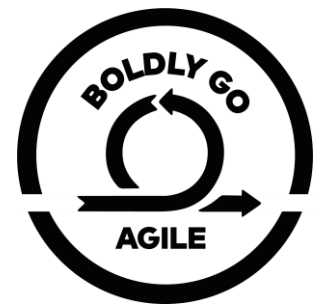

Learning 2
I experienced and discovered the basic values of agility in a playful way.

Sprint 3: Retro
Agile values & guiding principles, understanding of roles for the work in agile teams.

Learning 3
I have learned the principles of success of agile collaboration.

Experience the principles of success of agile teamwork in a playful way!

The Agile Escape Room is a team building activity that improves team collaboration and conveys down-to-earth seminar content through gamification. Furthermore, the training content can be individualized according to specific situations in your organization. For the entire event you should schedule approximately 8 hours including breaks. The duration of the game is about 3 hours. The Agile Escape Room can be executed anywhere. If you are interested, we will be happy to provide you with further information and requirements.

Voices of participants:

"So much fun! I finally understood what agility really means for me, our team and our organization."

"An extraordinary format. Our team is now super motivated to tackle the issue of agility."

"It was a true enlightenment for me. The playful approach to the subject totally convinced me."
